

Nova Scotia Chemists' Society

P.O. Box 542, Dartmouth, N.S. B2Y 3Y8

President's Report

Annual General Meeting, April 22, 2006

Since our last general meeting, the board of directors has been working hard on behalf of the Nova Scotia Chemists' Society's members. The Board has met monthly to plan and promotional activities for the society

We continue to make membership our main focus, but we have also started planning our next step. This will be the full legislative incorporation of the society.

To increase the societies visibility and membership we have been working on the following activities.

- We have continued to develop the societies web site.
- We have been visiting corporations where chemists work to make them aware of our society.
- We will be participating in the CSC conference forum on professionalization in chemistry on May 30th at the World Trade and convention centre in Halifax.

It is still our aim to proceed with full legislative recognition of our society, which will make it the governing body for chemists in Nova Scotia. This would include licensing powers.

Respectfully submitted

W.J. (Jim) Frazee, P.Chem.
President
